SAFETY EFFORTS EARN *Belleville Henderson Central School District* UTICA NATIONAL'S SCHOOL SAFETY EXCELLENCE AWARD

Belleville Henderson Central School District is one of at least 160 school districts and Board of Cooperative Education Services (BOCES) in New York State to receive the Utica National Insurance Group's "School Safety Excellence Award" for 2024 at the *Titanium with Honors* level.

The honor is presented annually and recognizes school districts' safety efforts as they work to help keep students, staff and visitors safe. *Belleville Henderson Central School District* received its award at Utica National's 42nd annual school safety seminar, one of seven such seminars the company hosts in the state. For over 50 years Utica National has kept kids and school staff safe and currently insures more than 300 school districts in upstate New York alone.

Belleville Henderson Central School District officials accepted a certificate to commemorate the district's safety efforts and a check for \$500 for use as reimbursement for and/or in connections with the school safety program.

Utica National's School Safety Excellence Award Program has three levels – titanium, platinum, and gold – in which schools can earn a meritorious distinction by meeting specific criteria to enhance overall safety. Through the program, schools with their own transportation, schools with contract transportation, and BOCES are evaluated. Categories covered include bullying prevention programs, playground safety and other areas, and are measured using specific, quantifiable surveys.

"Safety and health concerns continue to be a priority in our school districts," explained Brian Saville, Resident Senior Vice President in Utica National's Educational Institutions Unit. "Districts that go 'above and beyond' to provide a safe, healthy and focused culture for learning are to be applauded, and we're pleased to count *Belleville Henderson Central School District* among them."

Mr. Saville noted that, beyond the recognition itself, an added benefit of following the safety program is the chance to pinpoint specific threats to safety. "The time to address those threats is before a loss happens, which really helps contribute to the safety culture that districts are working toward."
